

Batting Cages

Retractable, Shower Curtain or Quick-Clip Style

Need to get that cage out of the way for other activities? We have several options to choose from:

- **Retractable cages** are operated with an electric winch, for on-demand use and storage and rest neatly in overhead.
- **Track-style systems** allow the netting to be opened and stored with a shower curtain type action.
- **“Quick Clip System”** can be raised and lowered with a quick tug on a few ropes and locked in place (think of raising and lowering horizontal blinds.)

Contact us to which option might be the best for your space and use.
